

A new report has been published in Web! **Monitoring Report 05: Education data for currently enrolled participants** is now available in the DCF / WISDOM / Employment Programs / W-2 Monitoring /Application and Assessment folder. This report can be used by the Education Navigators to determine which participants would benefit from earning an HSD or equivalent. This report shows education data and test scores for participants only (or both parents in the case of a two-parent family). It does not show education data for the children in a case. The secondary purpose of this report is to put some additional data into the hands of the FEP for decision-making purposes. FEPs can see which of their current participants have a current EP, and when the most recent Informal Assessment was submitted.
